Todoist for Teams
Step-by-Step Onboarding Guide

This guide is designed to help new team members get up and running in your shared Todoist workspace — from logging in and joining projects to collaborating effectively with your team.

Use it together with the self-serve demo for an interactive experience.

🔐 Step 1: Log In to Todoist

1. Open your browser and go to www.todoist.com.
2. Click **Log in** in the top-right corner.
3. Enter your email and password (or log in using Google, Apple, or another provider).
4. Once logged in, you'll land in your **Todoist account**.

You'll see two workspaces in the sidebar:

- **My Projects** – your personal tasks and projects
- Your **team workspace** – for collaborating with others

📁 Step 2: Navigate to Your Team Workspace

- From the left sidebar, click your **team workspace name**.
- This is where your collaborative team projects live.

👥 Step 3: Join an Existing Team Project

1. Click your **team workspace name** in the sidebar.
2. Open the project you want to join.
3. Click the **Join** button at the top-right corner.

🌟 Step 4: Create and Share a New Team Project

1. Click the **+** next to your team name and select **Add project**.
2. Enter a **project name** (e.g., “Client Onboarding”).
3. Choose a **layout** (List or Board) and assign a **color**.
4. Click **Add** to create the project.

To share the project with others:

1. Click the **Share** icon at the top-right of the project.
2. Enter the teammate’s **name or email**.
3. Click **Invite**.

💡 Organize Projects with Folders

To keep your team workspace tidy, you can group related projects into folders.

- Click your **team name** in the sidebar.
- Click **Add** on the right-hand side and choose **Add folder**.
- Give the folder a name (e.g., "Marketing Campaigns").
- Add existing or new projects to the folder.

🔒 Only team admins can change the order of projects. Learn more about folders →

🧹 Step 5: Add Sections to Structure Your Project

1. Open the project and click the **three dots icon**.
2. Select **Add section**, enter a section name (e.g., “To Do”), and click **Add section**.
3. Repeat to create more sections like “In Progress” and “Completed”.

🧠 Step 6: Create a Task

1. In your project, find the relevant section (e.g., "To Do") and click **+ Add task**.
2. Type the task like this:
   Develop content calendar for Q4 fri 3pm p1
   1. This uses **natural language** to set the due date and time: *Friday at 3 PM*.
   2. p1 sets the **priority level** to 1 (the highest).
3. Click in the **description field** beneath the task name and add more details:
   Create a detailed content schedule for the Q4 campaign.
4. You can assign a teammate while creating the task by pressing the **+ key**, typing their name, and selecting them from the dropdown.
5. Click **Add task** to save.

📌 **Tips:**

- You can type "mon", "next tue", or "in 3 days"—Todoist will parse it automatically.
- Priorities range from **P1 (high)** to **P3 (low)**. Use these to signal urgency.

✔️ Step 7: Complete a Task

1. Locate the task in your project or view.
2. Click the **circle icon** to the left of the task name to mark it as complete.
   1. The task will disappear from your active task list and is recorded in your **Activity Log**.

📌 **Tips:**

- **Recurring Tasks**: Completing one will automatically schedule the next instance.
- **Undo Completion**: Click **Undo** immediately after completing a task to bring it back.

👤 Step 8: Assign a Task to a Teammate (After Creation)

1. Hover over the task and click the **assignee icon** (a person silhouette).

2. Select a teammate from the dropdown list.

💬 Step 9: Collaborate Using Comments and Mentions

1. Click the **speech bubble icon** on a task to open comments.
2. Write updates, ask questions, or give feedback.
3. Mention a teammate using @name to notify them.
4. Upload relevant files, images, or links.

💬 **Use the comments like a mini chat thread to keep all task-related communication in one place.**

🎯 Step 10: Create a Custom Filter to View Specific Tasks

1. Click **Filters & Labels** in the sidebar.
2. Click the **+** icon next to **Filters**.
3. In the **Add filter** window:
    1. **Name**: e.g., "My Tasks Due Today".
    2. **Query**: e.g., today & assigned to: me.
    3. **Color**: Choose a color.
4. Click **Add** to save the filter.

📌 **Tip:** You can filter by due date, label, priority, or assignee. Learn more here.

📅 Step 11: Plan Your Work with the Today and Upcoming Views

1. **Today View**
   - Click **Today** in the sidebar to see all tasks due today.
   - Use priorities and times to organize your day.
2. **Upcoming View**
   - Click **Upcoming** to preview tasks for the next days/weeks.
   - Drag and drop tasks to reschedule.
3. **Calendar Layout**
   - In the Upcoming view, click **View > Calendar**.
   - Use weekly/monthly layouts to visually schedule tasks.
